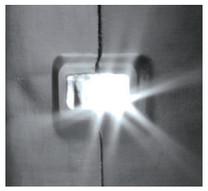
Variable speed control dial

allows operator to adjust cutting speed depending on material or application.

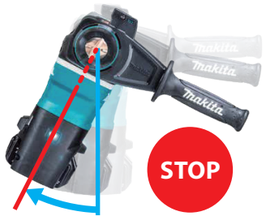


Dual LED job lights

Active Feedback sensing Technology

AFT

Torque limiter turns the motor off if the tool is suddenly forced to lock



XPT
EXTREME PROTECTION TECHNOLOGY

Dust and drip-proof performance is enhanced for use in outdoor applications or harsh environments.

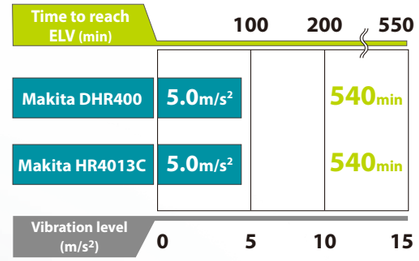
ANTI VIBRATION TECHNOLOGY

Comparison of Vibration level* and Time to reach ELV (Exposure Limit of Vibration)**

* It is known as the tri-axial value and value at Directive of A(8).

**It means the maximum amount of vibration that an operator may be exposed to on any single day.



Vibration absorbing housing isolates handle and motor.

Active dynamic vibration absorber moves in the opposite direction to the drive piston to reduce vibration.

Damper spring absorbs impact vibrations from the drill bit.
